Outline for the St. Louis Chapter of MSPS – Winter Membership Meeting

Location: Office of The Clayton Engineering Company, Inc., 2268 Welsch Industrial Ct., St. Louis, MO 63146

6:00 – 6:15 PM – Richard J. Barr Final Point marker presentation to family.

6:15 - 6:30 PM – St. Louis Chapter MSPS 2024-2025 Scholarship recipient & presentation.

6:30 – 6:45 PM – Business meeting. Chapter funds. 2025 meetings & plans.

7:00 – 8:00 PM – St. Louis City Limits 1876 Charter – Stone Task Outline & Surveyors Roundtable: The St. Louis City GIS Manager has expressed the desire for the original 1876 City Charter stone monuments to be provided in a current coordinate system and datum, primarily to improve the current City GIS system and all of the other programs that integrate with it. Many of these stones have been located through the years by surveyors in our region through various methods, and many of the surveyors have stories of how they landed on an original 1876 Charter stone. We will be requesting our members to assist in compiling an index of the stone locations, and calculating the boundary per the provided “Map of the Location of the City Limits Established by the City Charter of 1876,” a survey by Julius Pitzman and portions Re-Surveyed by Thomas Featherson during the years 1876 and 1879.
